Rack 2: PC

Rack 3: UPS power maintenance

Optical Module

2D (QRCode) reader and parcel size and weight recognition.

Parcel cart

Parcel cart allows for convenient transportation of consignments.

Software

- Possibility to configure various service types in the kiosk.
- Payment for services in cash and by payment card.
- Graphical user interface with animations to make the device use easier.
- Voice-over to support instructions appearing on the screen.
- Reading 2D codes on mail labels.
- Remote kiosk monitoring.

About us

Comp Centrum Innowacji (Comp CI) is presenting a new Quick Post self-service kiosk for posting letters and parcels. The kiosk is designed to be installed indoors as a 24/7 support to regular postal services. The Quick Post kiosks are installed in biggest Polish postal operator office branches. Comp CI is currently looking into the possibilities of establishing Quick Post kiosks in other countries and seeking potential local partners.
